

What is a Green Card and what is the process for asking for one?

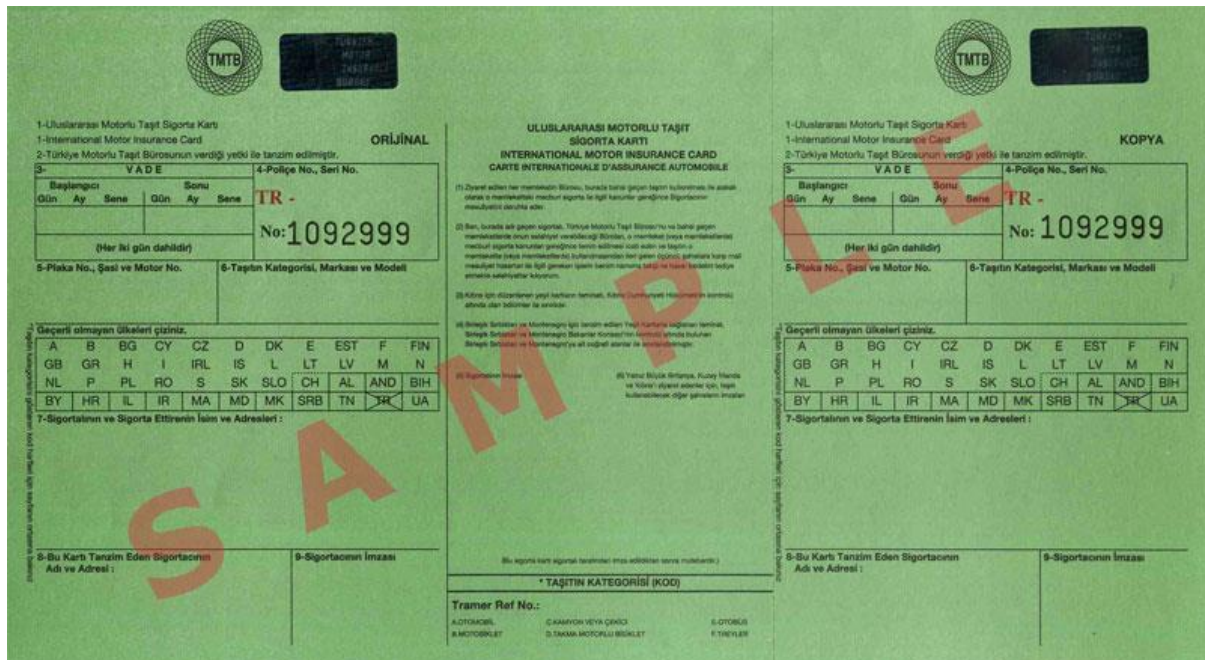

If you are traveling within [EU countries](#) on or after the 29th March 2019 you need to contact your Sutton Winson Account Team at least 15 days before your trip. Alternatively, please contact us on **0330 008 5555** or [complete our contact form](#).

If there is a no-deal Brexit, you will need to acquire an insurance 'green card' to be allowed to drive legally in any EU country, Norway, Iceland, Switzerland, Serbia, Andorra or Liechtenstein from 29th March 2019. Among those affected will be:

- Anyone driving across the Northern Ireland/Republic of Ireland border
- Anyone planning to take their vehicle to Europe e.g. a family planning a holiday to France in the forthcoming Easter holidays
- Any freight company planning to transport goods into the EU after 29th March

The green card is a multi-language translation of your insurance certificate set out in an internationally recognisable format. Your insurer must print Green Cards on a green paper to be legal and it must have a minimum of 15 days of cover on it when you enter the above countries.

It is currently not possible to have digital or electronic Green Cards. Example of a paper card is below.
